

PILOTS ASSOCIATION (KPA)  
Meeting at the Bardstown Airport  
Bardstown, KY  
10 January 2019

Called to order at 7:05 with Terry Welshans conducting the meeting as the Officers are not present.

Cory Johnson gave the treasurer's report. There are no bank balance changes with \$630.75 in the bank and \$50 cash on hand.

Chris Carter spoke about crosswind landings and compared low and high wing as well as large and small aircraft.

Terry introduced two guests, Justin Goldin from the BSA who gave all present the youth protection training so all in attendance are good to go with any scout activities. Tom Pfeifer brought a new adult leader to the meeting. He is Phil Roberts and will be our Assistant Advisor. Tom & Phil have submitted their paperwork to be on the Committee. Steve Kaufman filled his application out, has finished the online training, and given me his check. As Dusty was not present, Cory Johnson stepped up as our 5th member. Terry will see him tomorrow to get his completed form and his check. Terry filled out our charter form and submitted that fee along with his form and fee. Once Cory's form is in, we are official.

Tom said he has the 5 members necessary right now and has forms for them to complete. We had one youth tonight who has an interest in joining the Explorer Post. He was given form to submit. Tom and Justin discussed what number would be assigned to the Explorer Post. They agreed on Post 142 as that is the number of the Boy Scout troop that we are now working with.

Tom mentioned he would like to move along with the merit badge signoff for scouts. We need to do aircraft preflight and ATC items.

Terry introduced a second guest, Ryan Clark - the father of Gray Clark, the youth who wants to join the Explorers. Ryan is the Bardstown School District Superintendent. He spoke about the Bardstown High School and that it is looking for activities such as our Explorer program. He will push it out to the schools as an activity where aviation opportunities are available. I have his contact information and we need to meet with him to move this along. He mentioned that Jeremy Booher was at a meeting tonight on a similar topic for 8th-grade students.

Jere Roché spoke about the grass strip alongside the runway and that it should get end and side marking once the weather improves. He mentioned it will be mowed with the finish mower as will the runway edges. No news on the windsock.

Tom Vernon mentioned that he was at Columbus, Indiana airport recently and had a great lunch at the airport cafe there. They do breakfasts as well. Sounds like a good group trip for the association.

Ed Jett mentioned that Monday 1/14 the CAP at Etown will host a safety meeting at 1830, at the airport.

Adjourn 8:20.
