

Kentucky Pilots Association

Meeting Minutes – Jan. 12, 2023

Randy White called the meeting to order at 7:00 pm.

Terry Welshans said that the membership is at 36 including one youth member. He also reported that the bank account has \$3212.20.

Randy and Tom Vernon spoke about the problems with the QT pod fuel system.

Randy said the 2nd Saturday breakfasts will start in April and we need to review what is on hand and replenish where necessary.

Randy spoke about the official organization of the KPA as an LLC. He spoke with an accountant who suggested we reorganize as a not for profit social club to avoid paying taxes. We will have to change our EIN and bank account. This was discussed by the KPA directors earlier today and they approved the change. The members present had no objection.

Randy projected a presentation on night flying, currency, and what would be a safe terrain in daylight. One of the ground feature was a lake surrounded by mountains with no city lights available for reference.

The meeting was adjourned at 8:10 pm.
